

Real Series >> Funky Guitar Progressions

Future Loops unleashes the first title of the Real Series with Funky Guitar Progressions a collection of the freshest funk guitars packed with 273 groovylicious loops, both in WAV and REX formats .

For greater usability Funky Guitar Progressions was recorded in 2 tempos - 95 BPM and 115 BPM - and loops were performed in A Minor, D Major, E Major, G Major and G Minor to give you that authentic funky guitar sound you've been looking for.

There is a balanced diversity of tone in Funky Guitar Progressions so there is something here for all tastes : some loops have a very raw sound that can adapt to your own tweaking and other loops have a wet sound (pedals effects , processing etc..) that make them ready to standout in a track as they are .
