

**Soundset Series >>**

Future Loops is proud to announce D-Bass Kontrol–Massive Soundset, the second title from the brand new SoundsetSeries.

D-Bass Kontrol–Massive Soundset is an exceptional set of high-quality and professional Drum & Bass presets for NI Massive.

These are utterly nasty and downright dirty sounds, painstakingly designed for Drum N Bass & Jungle but that will also fit perfectly with other genres such as Breaks , Electro or Dubstep.

Each one of the 25 presets has 8 pre-defined Macro controls that allow you to quickly shape the sounds and tweak parameters with total Kontrol!

Once again, Future Loops brings you creative power at your fingertips!
