

Straight from our Groove Series comes Future Loops latest Release, **Dexter Sinister**. A thrilling collection of over 1500 loops and One-Shots that will defy your conception of contemporary dance music.

Future Loops teamed up with Alex Menzies (aka Alex Smoke), an exceptional talent to emerge from the Glasgow music scene. At a young age, Alex is already pushing boundaries with his unique approach to electronic and dance music . Classically trained as a musician his arrangements although often experimental show balanced amounts of intelligence and emotion .

Since his first release Incommunicado in 2005, Alex gained the critics attention and praise, and continues to capture audiences with his remix works (Depeche Mode, Steve Reich, Junior Boys, Funk D'Void, Radio 4, among many ), albums and dj sets around the globe.

**Dexter Sinister** features 1.40GB (before duplication) of intricately crafted samples that range from minimalism and experimental , to techno and electronica.

Dark, deep and emotional are good words to describe the vibe and tone of this complex and perfectly engineered sample pack that will appeal to producers looking for intelligent and mathematical sounds that thrive in an often chaotic but contemplative context .

**Dexter Sinister** includes over 1500 samples and loops in 90 BPM, 120 BPM and 128BPM , all organized by type : Bass , Beats , Claps , FX , Hats , Keys , Kicks , Percussion, Sequencer, Snares , Strings , Synth and Voxx .

There's certainly an incredible sonic variety that will satisfy even the most hard to please producers and with more than 850 loops ( of which almost 250 are razor-sharp Beats ), hundreds of one-shots and even a few kits for NI Battery .
