

Groove Series >> Zion Train Dub Selections

Future Loops is proud to present **Zion Train Dub Selections** a massive collection of sounds from the legendary Zion Train crew .

After the highly acclaimed **Zion Train Dub Drums** (that featured live dub drums from multiple sessions) Neil Perch , the production dub wizard behind Zion Train , opened up his own personal dub vault and teamed up with Future Loops once more to bring you a must-have set of Dub samples.

Being one of the planet's most prolific ensembles Zion Train have gathered huge following from dub fans all over the world with their signature dub , electronica and world dance music . They have a mammoth recorded output and countless production credits , remixes and collaborations as well as being very active in the DIY underground culture , producing magazines , CDs , websites and their now famous custom built Sound System . Recently their outstanding productions have earned them a Reggae Grammy for 'best dub album' in 2008.

Now and after over 2 years of work Future Loops offers you **Zion Train Dub Selections** , a pack loaded with positive vibes that celebrates the Dub genre and shares the legacy of the Zion Train sound .

Groove Series >> Zion Train Dub Selections

With more than 2.500 samples **Zion Train Dub Selections** provides you with essential dub drenched elements that will allow you to build complete tunes from scratch , ranging from the earthy reggae vibes to the more dance-floor oriented material : Bass, Brass, Keys, Voxx, FX and Full Beats are all included .

Full Beats

The Full Beats section of **Zion Train Dub Selections** was developed with the user in mind giving you unlimited possibilities for mixing , mashing and constructing dub breaks from the ground up : 40 Full Beats are included and each is provided with 4 or 5 variations (variations have different effects , reverbs , delays etc..) bringing the total of grooves to 236 loops .

In addition the separate drum loop elements (Kick , Snare , Hat ..) are offered as standalone loops for each variation and , to make **Zion Train Dub Selections** even more mouth-watering , the Drum Hits (over 300) are available as well giving you full control and flexibility .

Bass

In the Bass folder you will find both Live Bass (real Bass sessions with powerful basslines as well as one-shots) and Synth Bass (with deep , low and ready-to-make-the-speakers-rumble loops and one-shots) .

Lo-Fi Brass

The Lo-Fi Brass folder includes over 200 loops of vintage sounding Trumpets & Trombones with an almost vinylesque feel to them . If you are looking for very clean sounding brass loops look somewhere else : these Brass come directly from Neil Perch's personal collection and they definitely have a clandestine character and personality to them that we feel gives them a special warmth and hearth ideal for dub productions .

Keys

The Keys are organized by type , including Clav , Electric Piano , Organ and Rhodes . There are 180 loops and also 280 one-shots (notes , chords) so there's a lot to work on if you are looking for dub keys samples .

Voxx

The Voxx folder features the participation of Brother Culture and Dubdadda and 50 vocal samples are included .

FX

The FX content is organized in three different folders : Lush FX , Atmospheres and Analogue Noises . On total you have more than 200 FX sounds that are quite varied and go from harsh synth builds and analogue uplifters to drones , textures , bleeps or even field recordings .

In sum , **Zion Train Dub Selections** has the following content :

- 4.88 GB (3.5 GB before content duplication)
- 2554 WAV files / 1457 REX files
- 40 Full Beats with several variations
- 450 Loop Elements (Kick , Snare , Percussion , Claps etc..)
- 369 Drum Hits
